

AUGUST 17-19, 2018

SPONSORSHIP INFORMATION

Everyone we meet wants to be happy and does not want to suffer. When we recognize the struggles of another we can either fall into despair or be moved into compassion. Compassion is a force for positive change and Compassion Festival aspires to highlight people, communities, and organizations that are engaging in Compassionate Actions. Through creating meaningful connections and offering supportive tools, we hope to inspire and nurture individuals, communities, and the world to engage in actions that make a positive difference in the world.

Our aspiration is to inspire year-round compassionate action that culminates once a year with a celebration at Compassion Festival.

Compassion Festival will host a Film Festival, outdoor festival, workshops, presentations, and other activities that aim to bring people together and provide them with resources that encourage engagement in more compassionate activities.

To do this we will grow and nurture an annual Compassion Film Festival and Symposium that celebrates and honors people and organizations that are actively engaged in compassionate activities, inspiring others to do the same, through film, workshops, and hands-on activities.

Our goal is that Compassion Fest provides an environment that promotes connection and collaboration to bring more compassion into our daily lives and the community at large.

Our Mission is to inspire people and organizations to engage in compassionate activities by providing education and resources that highlight the tools and resources to put compassion into action.

On behalf of all of us at the Way of Compassion Foundation, we sincerely thank you for your support.
The Way of Compassion Foundation is a registered 501(c)(3) tax-exempt organization.
